

Day 8 journal entry

[Adeena Chowdhury]

Prompt option 2: *How has this experience affected or changed your career/college plans?*

The experience of being able to hear about all different people in different careers, and their different journeys to get there gave me more clarity into the flexibility of the corporate world specifically at Red Hat. Furthermore, I was able to do a one-on-one with a senior UX designer at Red Hat that opened me up to a whole new field that I didn't even know about before, that incorporates a lot of my interests into one career path, and it's something I'm looking into doing in the future.
