

# Day 4 journal entry

Nolan Scott

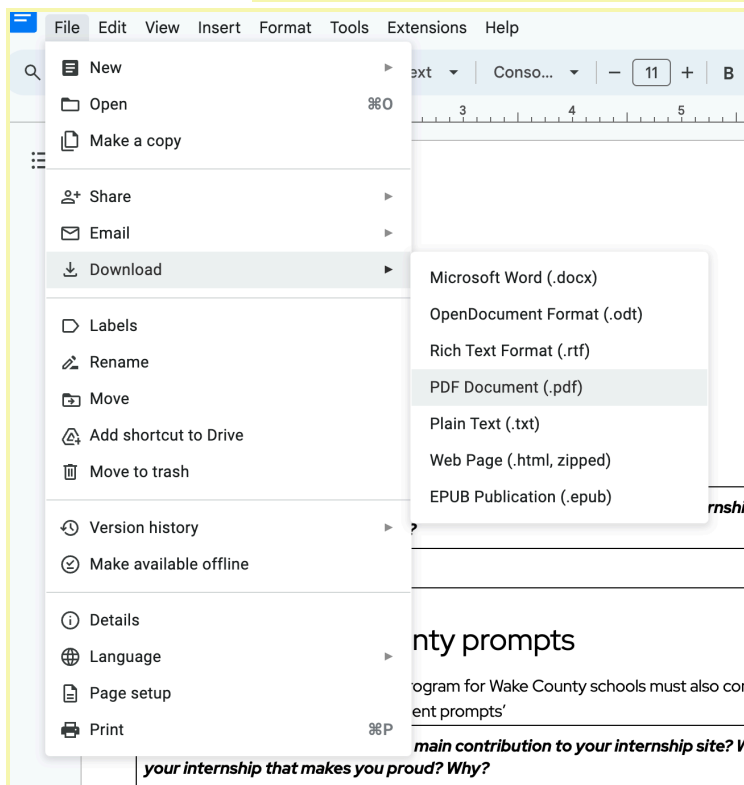

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

**Prompt option 1:** *What is a topic that you found interesting this week? How do you plan to seek additional information and learn more about that topic?*

I have been really enjoying learning about HTML, CSS, JavaScript and web development in general. I have always wanted to learn how to do it, and now that I have this incredible opportunity I will be working on my website plenty. I plan to continue web development after this internship and continue researching and learning about the topic, hopefully becoming proficient in the various languages needed.

## Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 4 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#). Use the ['Journal entry contribution' cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
