***Prompt option 1: How is the internship meeting or not meeting your expectations/objectives and why? Do you have control of this? Explain.***

This internship is absolutely meeting my expectations and objectives. I am getting to learn about Github and programming, I am meeting new people and learning about the functions of Red Hat, it is exactly what I wanted. I do think there is some level of control I have over it, with intern's choice sessions and scheduling meetings, but mostly I just go with the schedule and see what the day brings!
