

# Day 8 journal entry

[Jorge Romero]

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

**Prompt option 1:** *What have you learned about yourself and what you want in a career?*

**Prompt option 2:** *How has this experience affected or changed your career/college plans?*

**Prompt option 3:** *If you could give advice to a student starting this internship next year, what would it be?*

The main piece of advice I'd give future high school interns is to take advantage and capitalize on interests. If you find something you're generally interested in, learn the most about it and connect with people with expertise/knowledge in that field. There are definitely some boring moments, but enjoy the highlights when they come around. This is an amazing opportunity that you were chosen for for a reason, and use this to learn more about yourself. Even if you leave the internship not liking it, it might say more about what you personally like doing/finding with work. In the end, just have fun and enjoy the ride.

# Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 8 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#). Use the '[Journal entry contribution cheat sheet here](#)' to assist you and ask a GitHub coach for help if you need it!
