

# Day 3 journal entry

Matthew Madewell

**Prompt option 1:** *How has your classroom experiences prepared you for the internship? What do you wish you had learned prior to the internship?*

My classroom experiences have prepared me for the internship by instilling a willingness to learn, giving presentations, and learning various coding languages. These experiences have allowed me to ask quality questions to the Red Hat employees who share what they do, communicate to business leaders and fellow interns in a professional manner, and learn about the specifics of web development. However, prior to the internship, I wish I had learned more about the specific jobs that Red Hatters have, so that I could ask more specific and in-depth questions when they come to present.
