

Day 8 journal entry

Samantha Sun

How has this experience affected or changed your career/college plans?

Before coming into the internship, I was unsure and worried that my career path wasn't as solidified as my peers. However, I learned about how it's okay to not know exactly what I want to do for the rest of my life right now. Talking to Red Hat employees and mentors, I learned the importance of trying everything and exploring things I'm interested in, even if I'm not sure what I want to do. I also learned that there are many opportunities out there and even if my plans now don't work out, there's plenty of other paths for me to follow. I became less anxious about making large decisions and finding my next steps in life.
