

# Day 3 journal entry

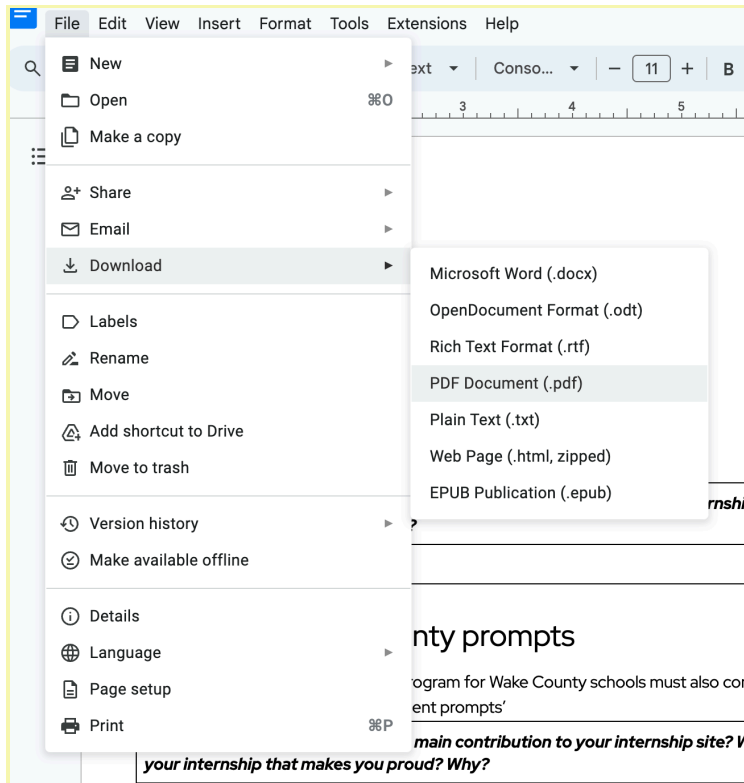

[Ella Callahan]

**Prompt option 1:** *How has your classroom experiences prepared you for the internship? What do you wish you had learned prior to the internship?*

My classroom experience has prepared me for this internship because it has taught me to be organized and how to communicate effectively in the workplace. I have learned through my Red Hat experience so far that it is critical to network and be able to communicate in order to achieve success which also holds true in the classroom setting. I have also learned how to collaborate with others and to embrace diverse perspectives and use those to further my knowledge which has been an extremely helpful skill to carry in the workplace. I wish that I had learned more about open source before I came here because I think it would have given me an advantage in terms of understanding how Red Hat functions as a company. I do believe though that I now sufficiently understand what open source is and Red Hats role in that aspect.

# Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 3 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#).  
Use the ['Journal entry contribution' cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
