

Day 6 journal entry

[Firstname Lastname]

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

Prompt option 1: *How is the internship meeting or not meeting your expectations/objectives and why? Do you have control of this? Explain.*

This internship is meeting my expectations in the sense that it is allowing me to make meaningful professional connections. However, I wish we were able to contribute to a project at RedHat, even if that contribution is very small. I would like to get more involved with the company during my internship instead of working on projects about myself. This is not in my control. Regardless, this internship is still proving to be valuable.

Prompt option 2: *Who have you met during your internship that has made an impact on you, and why?*

I have met a Product Manager who works in a leadership position at RedHat. I talked with him and he gave me valuable career advice and suggestions for concentrations in college.

Prompt option 3: *Describe a challenge you encountered during your internship and how you approached overcoming it. What did you learn from this experience?*

Learning to code with JavaScript was very difficult to begin with, but I was able to use outside resources in order to fill in the gaps in my knowledge. I was able to push through and find ways to make a creative design using my web development skills.

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 6 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#). Use the '[Journal entry contribution cheat sheet here](#)' to assist you and ask a GitHub coach for help if you need it!
