

Day 8 journal entry

[Anna Badulis]

Prompt option 3: *If you could give advice to a student starting this internship next year, what would it be?*

If I could give advice to a student starting this internship next year, it would always be open and ready to learn new materials. I have learned so much on how to grow my professional brand, why networking is so important, how different roles at Red Hat contribute to the company, and even how to set good habits on budgeting and saving. Overall, I would say don't have a fixed mindset going in, because you will learn a lot of new things and it can change what you want your career to be.
