

# Day 3 journal entry

[Firstname Lastname]

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

**Prompt option 1:** *How has your classroom experiences prepared you for the internship? What do you wish you had learned prior to the internship?*

Add your response here

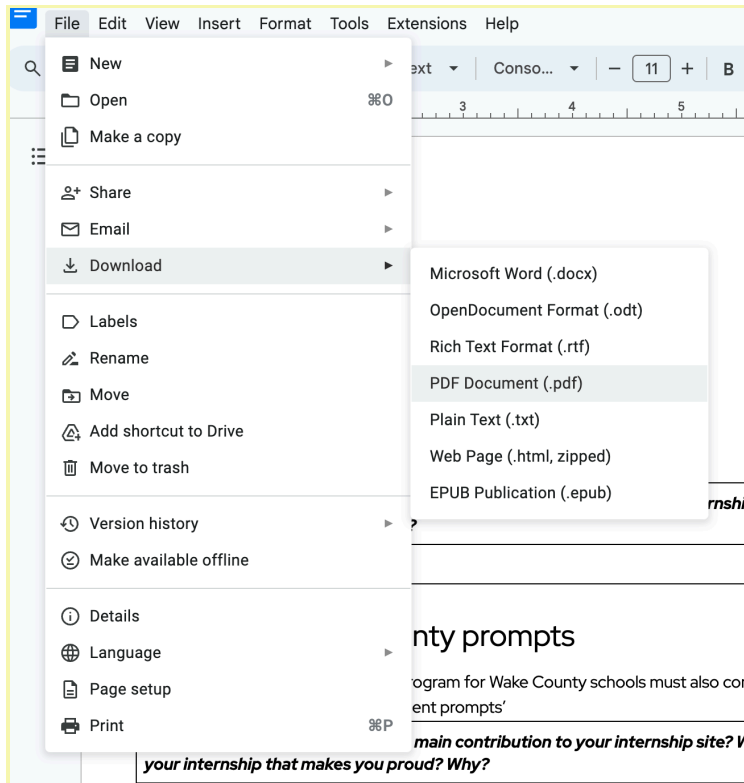

**Prompt option 2:** *What is one new skill or piece of knowledge you've gained this week? How do you see yourself applying this in the future?*

One skill that I have gained this week is how to connect with confidence. I learned how to network with industry professionals, ask questions, and make connections that can help me down the road in my future career. I have used these skills to not only talk with the professionals and Red Hat employees that have presented to us but have also used these skills to build relationships with my peers, interns, and mentors. I see myself applying this skill in the future by actively engaging with people confidently and getting the most out of the interaction. I see myself applying this not only to the workforce but also with people I meet in my personal life to build and strengthen relationships.

**Prompt option 3:** *What are some of the differences you've noticed between a school environment and a professional work environment?*

# Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 3 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#).  
Use the ['Journal entry contribution' cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
