

Day 4 journal entry

[Ella Callahan]

Prompt option 1: *What is a topic that you found interesting this week? How do you plan to seek additional information and learn more about that topic?*

A topic that I found interesting this week was learning about a “day in the life” of a Product Designer/UX. Prior to learning about UX, I was not familiar with user interface and the complexity of user experience. I was intrigued when I discovered that UX is about understanding people and enhancing their experience through design. I also love that this job involves exploring diverse perspectives for solutions and an element of that is the variety of people Product Designers work with (ex. Engineers, PM's, Researchers, Customers, Designers). I plan to seek additional information about UX and how Product Designers function in other companies by connecting with Product Designers on LinkedIn and actively researching more internships that can provide me with that experience and knowledge.
