Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

Prompt option 1: *How is the internship meeting or not meeting your expectations/objectives and why? Do you have control of this? Explain.*

This internship has far exceeded my expectations! I came into this internship with an open mind. I expected some kind of dive into technology and what Red Hat does which were all checked off in the first few days. Despite what others may believe, I do kind of have control over my own expectations. When you apply to things, you have certain things you want to learn and complete and whether or not you feel fulfilled is wholly based on your expectations! I came with an open mind so my expectations have been met. Also, the free snacks are nice!
