

# Day 4 journal entry

[Anna Badulis]

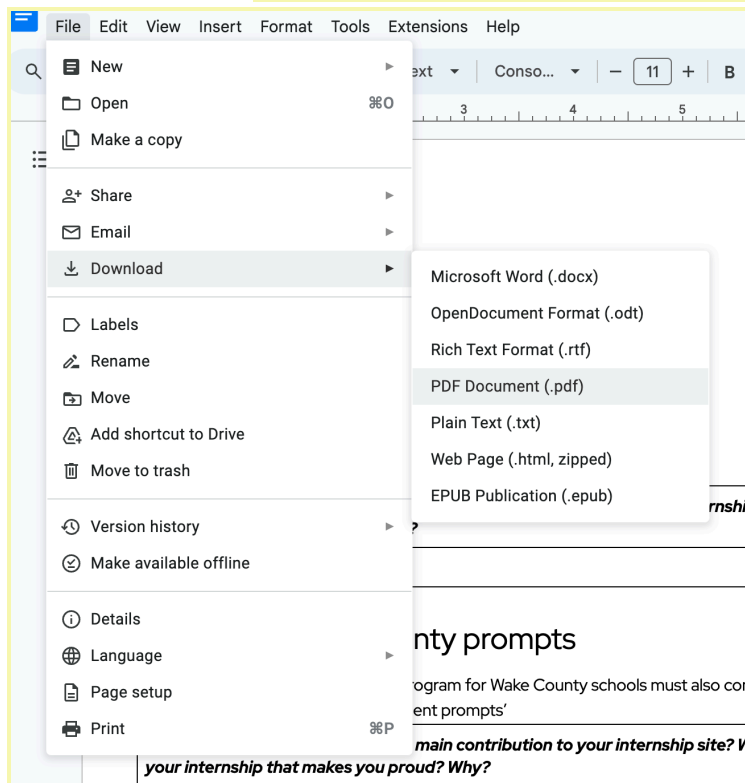

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

**Prompt option 2:** *Discuss your interactions with various people during your internship and the value each relationship brings (peer interns, college mentor, session speakers, higher-level leaders).*

My interactions during my internship with everyone here at Red Hat have been very welcoming and friendly. With my peer interns we have all definitely gotten warmed up to each other more but are still shy. Other than that I still was able to make some friends throughout my two weeks. We also always try to help each other if someone doesn't know what to do. My college mentor, Rachel Kershner, has been nothing but kind to me. She is very helpful and understanding to me when it comes to my questions about Red Hat and just how to do certain tasks. Our session speakers and higher level leaders have been always ready to help us, they understand that we are new and aren't as familiar with certain terms or what certain positions do so they do a great job at explaining everything.

## Export + contribute your reflection

- Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 4 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#). Use the '[Journal entry contribution](#)' [cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
