

Day 3 journal entry

[Alina Dhaliwal]

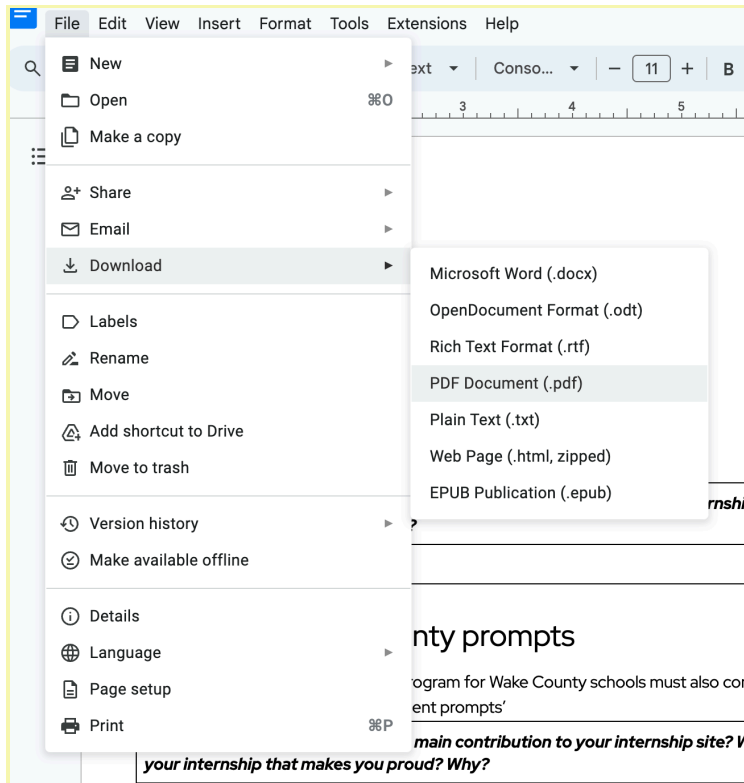

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

Prompt option 2: *What is one new skill or piece of knowledge you've gained this week? How do you see yourself applying this in the future?*

This week I have learned about the importance of networking. Networking, especially in a big tech company like Red Hat, gives you the opportunity to make meaningful relationships which can help you advance in your career. We have been given the opportunity to network through our college mentors and lunches with various teams. I see myself applying for networking in college when I am trying to find a job, and in all my future endeavors. Continuously building strong relationships with your colleagues will always be important in your professional career.
