

Day 3 journal entry

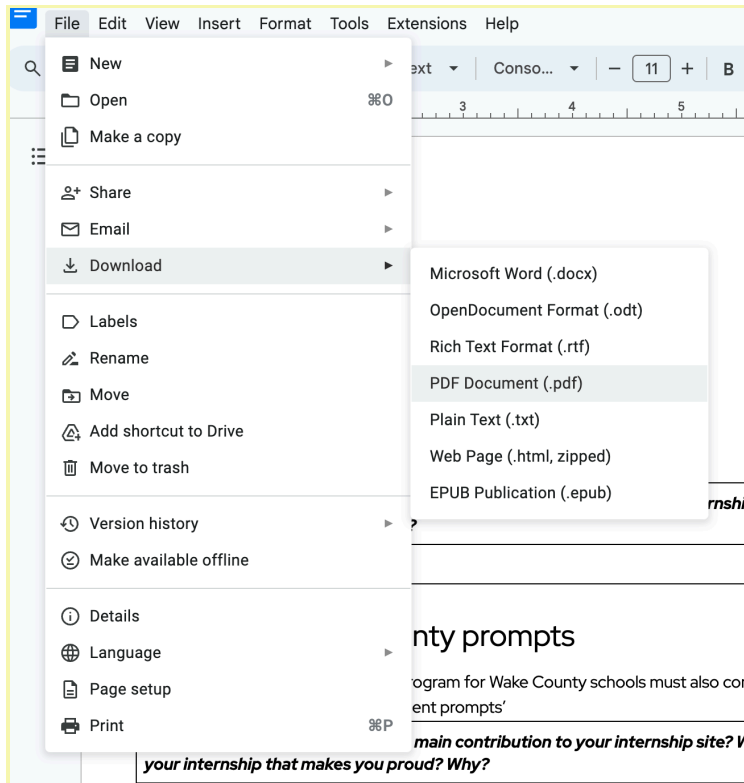

Arvind Bassi

Prompt option 3: *What are some of the differences you've noticed between a school environment and a professional work environment?*

One of the biggest differences I've noticed in the school and work environment is the willingness to teach and help others. Oftentimes in school teachers will teach their materials and not be willing to answer any questions, be there for extra help, or respond to emails. However at RedHat all the people I have learned from are willing to answer any questions, make time for you one on one, and go out of their way to give you their slack or LinkedIn. Another major difference I have seen at RedHat is from my other interns. The other interns genuinely seem interested in the information and want to be here, while at school most times some people don't really care about the lesson and are waiting for the day to end.

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format **[Firstname Lastname] Day 3 Journal Entry**

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#).
Use the ['Journal entry contribution' cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
