

# Day 8 journal entry

Alina Dhaliwal

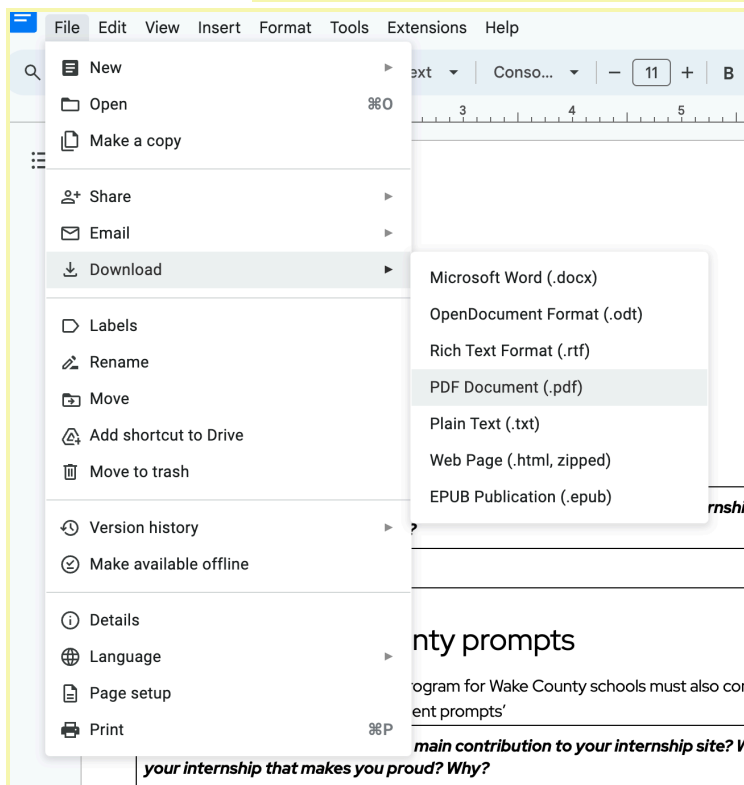

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

**Prompt option 1:** *What have you learned about yourself and what you want in a career?*

From this internship, I've learned that I want a career that I am constantly learning in and one that I genuinely enjoy. I discovered that I value flexibility, collaboration, and a culture where asking questions is welcomed. At Red Hat, I experienced a supportive atmosphere where everyone was open to helping and sharing their knowledge. This kind of culture is something I now know I want in any future workplace.

## Export + contribute your reflection

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in [our shared repo](#). Use the ['Journal entry contribution' cheat sheet here](#) to assist you and ask a GitHub coach for help if you need it!
