Day 4 journal entry

Mateo Moreno

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

Prompt option 1: **What is a topic that you found interesting this week? How do you plan to seek additional information and learn more about that topic?**
This week, I was very interested in learning about Product Management. I am learning more about this topic by meeting with RedHat leaders who work in Product Management and exploring the UX design process.

| *Prompt option 2:* **Discuss your interactions with various people during your internship and the value each relationship brings (peer interns, college mentor, session speakers, higher-level leaders).** |
|---|
| I have found lots of value in talking with people in leadership roles at RedHat. In addition, talking with my peers about Github specifics and learning HTML/CSS has been very interesting. |

Prompt option 3: **What are your main takeaways from this first half of your internship and how do you plan to carry those lessons into your second week?**
I now know that my internship will be very focused on networking and making connections. In my second week, I am going to expand on my connections and reach out to more people and find things that I am interested in at RedHat.

Export + contribute your reflection

1. Once you've filled out the above prompts, export this doc as a PDF. Note: make sure you rename the file to be in the format [Firstname Lastname] Day 4 Journal Entry

2. Now that you have a PDF of this week's reflections saved locally to your laptop, you should contribute the PDF to your personal GitHub dropbox area in <u>our shared repo</u>. Use the <u>'Journal entry contribution'</u> <u>cheat sheet here</u> to assist you and ask a GitHub coach for help if you need it!
