Day 8 journal entry

Aivan Nguyen

Choose 1 of the following prompts to respond to and then delete the prompt(s) that you did not choose.

*Prompt option 1: **What have you learned about yourself and what you want in a career?***
Throughout this internship, I have learned a lot of things about myself. For a career, I really didn't know what I wanted to do and this internship really helped me see that tech companies don't need just coders, they need a whole variety of people and skills to help run a business. The atmosphere of Red Hat really helped me formulate where I want to work out and how I work. I want to work at a place where they value me as an employee with flexibility. I want a career that is enjoyable, challenging, but overall creative.
